STATEMENTREFERRED TO IN REPLY TO PARTS (a)TO (f) OF THELOK SABHA STARRED QUESTION NO. 31 BY SH DILIPKUMAR MANSUKHLAL GANDHI AND SHRI SURESH CHANDEL FOR REPLY ON 16.07.2002

(a) The scheme of Navodaya Vidyalaya envisages opening of one Jawahar Navodaya Vidyalaya in each district. After excluding the districts of Tamil Nadu and West Bengal who have not accepted the scheme, there are 74 districts in the country, which do not have JNVs at present. Some of these districts have been newly created. State wise break up of these 74 uncovered districts is enclosed at Annexure I. NVS proposes to cover all these 74 districts during 10th Plan. There is no provision for opening of Kendriya Vidyalayas from plan funds during 10th Plan period.

(b),(c)&(d) The Navodaya Vidyalayas have generally fulfilled operational parameters like the quantity, quality of Board results, involvement of children in various co-curricular activities, sports, games and other functional areas. However, a few schools due to inadequate accommodation, infrastructure, etc. have not been able to admit the intended number of children.

To remove the infrastructural bottlenecks, the following measures are being taken by NVS:-

(i) Concerned State Governments are being requested to expedite the transfer of required land.

(ii) Close liaison is maintained with the construction agencies entrusted with the construction of the buildings for close monitoring to accelerate the construction work.

(e) & (f) Out of 435 functional JNVs, 332 Vidyalayas are functioningin their own buildings at permanent sites. 103 JNVswhere either the land is not provided or construction is not completed, are functioning in temporary buildings provided by concerned State Government. However, all the basic amenities like water, sanitation, electricity, etc. are provided in these Vidyalayas at temporary site also.

The State wise break up of the 103 JNVs functioning in temporary buildings is enclosed at Annexure II. The construction of permanent buildings for the majority of these Schools are expected to be completed by 2004.

As far as Kendriya Vidyalayas are concerned, out of 843 schools at present, 614 schools are running in the permanent buildings. Out of remaining 229 schools, construction work is in progress in respect of 104 schools, which are at different stages of completion and are likely to be completed within the next two years. In 43 Kendriya Vidyalayas, the construction of school buildings is at planning stage; and in 82 schools, suitable land is yet to be made available by the sponsoring agencies to KVS so that permanentschool

buildings can be constructed there. However, till such time the permanent school buildings are constructed for the remaining 229 schools, the accommodation and other basic amenities are being provided by the sponsoring agencies as per the terms and conditions for opening of Kendriya Vidyalayas.
